

TransitionGuard Gap Report

Patient: John Thompson | DOB: 1955-11-12 | Generated: 2026-05-04T18:22:00

Severity	Category	Title	Description	Suggested Action
warning	action_needed	No corticosteroids prescribed for COPD exacerbation	Discharge indicates COPD exacerbation, but no systemic corticosteroid was found in discharge medications.	Review GOLD-aligned steroid plan and document rationale if intentionally omitted.
warning	action_needed	VTE prophylaxis not documented	No VTE/DVT prophylaxis plan or documentation was found in the discharge summary.	Document VTE prophylaxis status (pharmacologic/mechanical/contraindication).
critical	action_needed	Allergy conflict risk: A moxicillin-Clavulanate	Discharge medication may conflict with documented allergy (Penicillin) via shared class (penicillin).	Urgent safety review: verify allergy-safe alternative before continuation.
info	missing_from_pcp	New medication: Acetaminophen	Prescribed at discharge but not in the patient's existing medication list.	Add to medication list and confirm prescription continuity.
warning	missing_from_handoff	Medication not in handoff: Simvastatin	On patient's existing medication list but not mentioned in the discharge summary. May have been intentionally discontinued or omitted.	Verify whether medication was discontinued or inadvertently omitted.
warning	missing_from_handoff	Medication not in handoff: Azithromycin	On patient's existing medication list but not mentioned in the discharge summary. May have been intentionally discontinued or omitted.	Verify whether medication was discontinued or inadvertently omitted.
info	missing_from_handoff	Diagnosis not in handoff: Chronic Obstructive Pulmonary Disease	On patient's existing problem list but not mentioned in the discharge summary.	Confirm whether condition was addressed during hospitalization.
info	missing_from_handoff	Diagnosis not in handoff: Hyperlipidemia	On patient's existing problem list but not mentioned in the discharge summary.	Confirm whether condition was addressed during hospitalization.
warning	action_needed	Referral to schedule: Pulmonology	Referral ordered at discharge but no matching appointment in patient's care plan.	Schedule referral appointment and notify patient.
warning	action_needed	Follow-up to schedule	Discharge follow-up task not yet reflected in patient's care plan.	Add task to care plan with target completion date.
warning	action_needed	Follow-up to schedule	Discharge follow-up task not yet reflected in patient's care plan.	Add task to care plan with target completion date.
